

## REMARKS

Applicant thanks the examiner for his attention to the application. Applicant has amended the claims to forms believed distinguishable from the claims of US 6,626,195, which should overcome the double patenting rejection under 35 USC §101.

In regard to the objection to the drawings, 6 sheets of drawings corresponding to the drawings of US 6,626,195 were filed with the application. A self-addressed postcard acknowledging the receipt of the foregoing drawings was received from the USPTO (copy attached). The examiner's objection is therefore not clear and applicant requests the withdrawal of the rejection or clarification. If the examiner requires an additional set of drawings, applicant will forward same under separate cover.

With the foregoing amendments to the claims, the application should be in a condition for allowance. No new matter has been entered with any of the foregoing amendments. Applicant requests the examiner's reconsideration of the application and an early notice to the allowance thereof.

If any matters remain that can be handled with a telephone conference, the examiner is encouraged to contact the undersigned.

Respectfully submitted
